SUMMARY

A game and tools programmer, currently in my third year at the University of Staffordshire, finalizing my studies in games programming. I am a hardworking individual with proficient knowledge of C++ and C#, specializing in PCG, low-level systems, and optimization. I work well in team environments, delivering optimal and bug-free code. I demonstrate strong problem-solving skills and can effectively grasp new concepts.

TECHNICAL SKILLS

- C++
- C#
- Unity
- Unreal Engine
- Procedural Content Generation
- Low-Level Optimization
- Tools Development
- Networking and Multiplayer Programming
- Version Control
- Docker
